Summary

Computer Science undergraduate with a strong foundation in C++, Java, Python, and database technologies. Passionate about software development, problem-solving, and building scalable applications. Seeking opportunities to apply technical skills and contribute to innovative engineering solutions.

Skills

Languages: C++, Java, Python, C, JavaScript

Databases: MySQL, MongoDB, Oracle

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS

Experience

Virtual Internship – Career Recommendation System

February 2026 - April 2026

Infosys Springboard Virtual Internship 6.0

Tools Used: Python, Streamlit, SQL

- **Developed an intelligent career recommendation system** that analyzes user resumes to suggest suitable job roles based on skills and interests.
- Implemented resume parsing and text extraction techniques to identify key skills, strengths, and areas for improvement.
- Built machine learning models to match user profiles with relevant career paths, improving recommendation accuracy.
- Designed an interactive interface using Streamlit to allow users to upload resumes and receive instant insights and suggestions.

Projects

Community Book Rental and Exchange Platform

November 2025 – December 2025

Tools Used: JavaScript, HTML, CSS, MongoDB, Visual Studio Code

- Developed a platform for community-based book rental and exchange.
- Implemented user registration, book listing, search, and rental request modules.
- Designed MongoDB collections for efficient data management.
- Enabled transaction tracking and book availability management.

Bus Ticket Generating System

November 2024 – December 2024

Tools Used: Java, Java Swing, JDBC, MySQL, Eclipse

- Developed a Bus Ticket Management System for ticket booking, cancellation, and schedule management.
- Designed modules for login, registration, and seat availability checking.
- Implemented fare calculation and automatic ticket generation.
- Integrated MySQL using JDBC for efficient data storage and retrieval.

Certifications

- **Internship 6.0 (B13) – Infosys Springboard (2026):** Developed a Smart Resume Analyzer with personalized job recommendations and LinkedIn profile enhancement features using AI-driven techniques.
- **Introduction to Industry 4.0 and Industrial Internet of Things – NPTEL (2026):** Learned Industry 4.0, IIoT, smart manufacturing, and cyber-physical systems concepts.
- **Practical Cyber Security for Cyber Security Practitioners – NPTEL (2025):** Acquired knowledge in network security, threat analysis, and practical cybersecurity techniques.
- **Introduction to Large Language Models – NPTEL (2025):** Learned fundamentals of large language models, AI concepts, and their applications in natural language processing.
- **Programming in Modern C++ – NPTEL (2024):** Gained strong understanding of object-oriented programming, STL, and modern C++ concepts through structured coursework and assignments.

Education

B.E Computer Science and Engineering

2023 - 2027

Mepco Schlenk Engineering College, Sivakasi

CGPA: 7.41 / 10

Higher Secondary (Class XII)

2022 - 2023

Jaycees Matriculation Hr. Sec. School, Sivakasi

Percentage: 89.33%
